TOP OPTI ^{LIB}

GAME OVER progeny bull

More desirable than ever

TOP QUALI ^{LIB}

MANCHESTER, strong leader for the HIGHEST MILK VALUE

New internationally available bull, MANCHESTER (BB, A1A2) strengthen his position on top of the Normande breed

With exceptional Protein +0.17% & Fat +0.36% with interesting milk production, **MANCHESTER** brings a perfect strength and overall type either for its nice and healthy udders +1.1 and very sound feet and legs +1.3 from an astonishing high production and type family cows, and same dam than the N°1 ISU MONTFORT

Other advantages: Calving Ease bull, available for sexed semen!

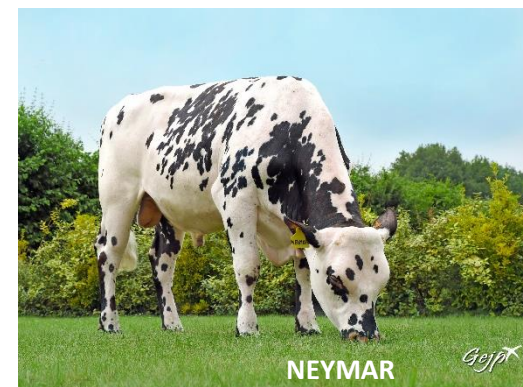

TOP CONFORT ^{LIB}

NEYMAR confirms its universal FITNESS

NEYMAR (AB, A2A2) represents one of the best genetic combination to bring absolutely healthy feet and legs (+1.6) with strong hooves and easy locomotion. He is perfectly recommended for high grazing systems with his moderate height, strong rumps, high reproduction (+1.3) and easy calvings (91)

Other evidence to use NEYMAR : his top protein contents +0.2% and good availability in sexed semen.

MISSILE, total HEALTH

MISSILE (AB, A2A3) brings a strong solution to improve health . He is one of the best to improve cell counts (+1.7), reproduction +0.9) associated with good production level perfectly well balanced between volume, protein and fat contents.

2 other benefits with **MISSILE** : his open pedigree (Julio x Flaman Isy) and his new availability in sexed semen

TOP OPTI LIB

GAME OVER , just UNBEALIVABLE !

GAME OVER (AB, A2A2) maintains its absolute leadership among progeny bulls with more than 2600 daughters who work hard and healthy every days in dairy production. With high milk and protein, perfect udder health and reproduction, as well as absolutely healthy feet, **GAME OVER** suites perfectly all systems from crossbreeding in intensive dairy conditions to full grazing systems.

Additional advantages: still available in both sexed end conventional semen, with high fertility semen !
