NEW GENOMIC SIRES

RASTAROKET

O Malley x Sinatra x Blooming

aAa 462513

Best available bull in
SWITZERLAND !

RASTAROKET

For sure this will be the hottest O MALLEY son worldwide! He is the number one bull available in Swizerland for GZW at 1496 along with 135 udder, he is also 181 PPR and +1.03 UDC. He goes back to the same family as the bull ROCKY (Canyon), that is really transmitting a lot of production and complete type. His dam Oceane shows a VG udder and a lot of style. He is going to sire top udders, high butterfat content, and balanced animals. He is also a calving ease sire and improves milking speed. He is AB and A1A2, and available conventional and sexed.

Oceane, RASTAROKET's Dam

RIESLING

O Malley x I feeling x Payssli

aAa 645213

**Best genomic foreign bull in
GERMANY !**

RIESLING

He combines two of the most famous French bulls in the world: O MALLEY the most used sire of sons in the recent years and IFEELING, probably one of the best proven bull with super production! He comes from a new cow family with great potential and his dam show a VG 87 udder too. RIESLING is going to be the best O MALLEY son for production, with 135 GEW he is the best foreign genomic bull in Germany ! He can bring at the same time an excellent longevity proof : cows with moderate size and very well attached udders, and ideal rumps. Functionality is there to make them last and he is a calving ease sire too. BB and A2A2. Available with conventional semen only for the moment. Planned to be sexed.

Malurette, RIESLING's Dam

RULLY

Alpsee x Loustic x Enzo

aAa 561423

Great start at 197 PPR in the
UNITED STATES !

RULLY

This newcomer is from another new deep cow family with show results and production. His Granddam Irlande VG 87 sired by Enzo (Vasir son) was class winner in Sommet Elevage and still performs very well with 50588 kg in 5 lactations at 4.8%F and 3.9%P! His dam Oklahoma G+84 by Loustic is a very strong cow with high milk and milk components (4.5%F and 4.0%P) a trademark of RULLY. His sire stack offers plenty of opportunities and he brings the really perfect complete package for all dairymen! On top of that, he ranks at the top of the PPR list with 197 pts! He is AB and A2A2, available sexed

TOP GENOMIC SIRES

ROQUEFORT

Barca x Sinatra x Harmonica

aAa 234165

Ideal partner for O MALLEY daughters!

One of the best BARCA son you can find in the world! From the same family as PATRICE, he has a different pedigree and offers a package of production and type. He is 1396 GZW CH and 1018 ITE, brings BB and A2A2, available with sexed semen.

BSF Osomet, ROQUEFORT's dam

RIDLEY

O Malley x Vanpari x PayssliOLE

Blower x Fact x Zephir

aAa 564123

A perfect sire for grazing system and commercial farms

Another O MALLEY son with a different profile: small cows with components, snug udders and strong feet and legs, with exceptional fitness traits, extra calving ease and good milking speed! Can be used also for crossing. He is 1484 GZW (Number 2 in Switzerland) and 124 GW, with BB and A1A2, available with sexed semen.

RIDLEY

ROCKY

Canyon x Blooming x Vivid

aAa: 156324

A really dairy bull with plenty of potential!

He is in the TOP 10 of genomic bulls available in Italy at +1135 ITE! From the same family as RASTAROKET, a really proven cow family with high potential. He brings a complete profile, with extremely wide rear udders and is an extra calving ease bull. He is also BB and A2A2, well available extra sexed and conventional.

Odyssee (Sinatra), half sister of Rocky

OPTIMAL

Sinatra x Blooming x Vigor

aAa: 156324

From the famous Fiona family

With 1471 GZW he remains top 3 in the Swiss list of AI sires! He is going to have soon the first sons available and his daughters are very pleasing on the field.

Mana, OPTIMAL's dam

PACTOLE

Blower x Fact x Zephir

aAa: 243615

Always Number One PPR bull in USA !

He is also the best French sires in ITE (Italy) with +1186 and ranks in the TOP 5 of available genomic bulls! The true component maker, with all positive fitness traits. Pactole is BB and A2A2 and widely available both conventional and sexed.

PACTOLE

TOP PROVEN SIRES

NICE GP

Fact x Calvin x Glenn

He was the first French bull to be used widely in Switzerland: during summer 2018, he was released there as a sampling sire. He has now 69 daughters in his proofs, including 57 from Switzerland and 44 classified. He is the best proven bull of his generation (born 2017) with GZW 1326! And his profile is something really unique: +128 udder, +108 fertility, +121 somatic cells, +126 milking speed, +120 temperament, +109 muscling and +666 milk. He makes the kind of cows that breeders like and that can last! During Miss BGS show and on farm tours we could realize the quality of his udders, but also their great strength overall. He is BB and A1A2, well available conventional (no sexed semen, bull is dead).

Parrure, NICE GP's daughter, elected Miss BGS at Paris show 2022

LUTHER

Bradley x Anibal x Hucos

He has now over 230 daughters and he transmits excellent frames, with much width in the front end and in the rumps. Balanced for production and components with good fertility also, his daughters give plenty of satisfaction to their breeders. He is available in conventional semen only.

Ombrelle, LUTHER's daughter

NAMUR

Vassli x Anibal x Hucos

Half-brother to LUTHER, he brings even more production along with great fat content! His daughters are very balanced cows in their bodies, with a good ratio of stature and strength, and really ideal thurl position ! They move on excellent feet and legs and their functional udders can support well their high production. He is available in conventional semen only. AB and A2A2.

Parisienne, NAMUR's daughter

MAJESTE

Carter x Preset x Pronto

Parfaite, MAJESTE's daughter

As expected, MAJESTE is able to bring so much milk with his daughters! He has lost some of his components but he is now +1822 milk! He is a calving ease sire and also BB and A2A2.

Padorable, MOMO PF's daughter

MOMO PF

Ifeeling x Husold x Dally

He is just starting to add his first daughters in milk: the components will be really the trademark of this bull with all favorable fitness traits and a functional type. He is 1362 GZW CH, 134 GZW DE, also BB and A2A2.
